DMED 290
Logo Design
DUE: Tuesday, February 8th – We will review these in class

What you should be prepared with:
- A Logo design for the site.

Some things to think about:
● The logo should be bold and of limited color. Remember all the concepts you learned in 120. No pictures.

● The design should be able to be sized down on the web and still be clear.

● Design this logo in Freehand or Illustrator. Do not use Photoshop or Fireworks. Do you remember why?
